The barcodes on this sheet can be used to show how easy and effective the **LaserMagic** bundle from Serialio.com, barcode enables the **Principalm** application.

This works with all versions of SerialMagic for Palm OS. This works with the Principalm 6.0 demo and later.

For more information contact

### Instructions

- 1) Install the Principalm 6.0 Demo or later, see Principalm website for details.
- 2) Install the SerialMagic application.
- 3) Run SerialMagic and connect a LaserChamp scanner to the Palm device - Bluetooth or tethered.
- 4) Run Principalm demo.
- 5) Scan the barcodes on this sheet and the student information should be instantly displayed. Use the Principalm "Basic" view to see the student picture.

(Note: if using LaserChamp Bluetooth and the LED is not active, allow a few seconds for the scanner to connect to the Palm device, once connected response to scans will be nearly instantaneous)
